

**"A completely new
way of building
interior walls. More
sustainable, more
cost-effective and
more ergonomic."**

smartax™

This is Smartax.

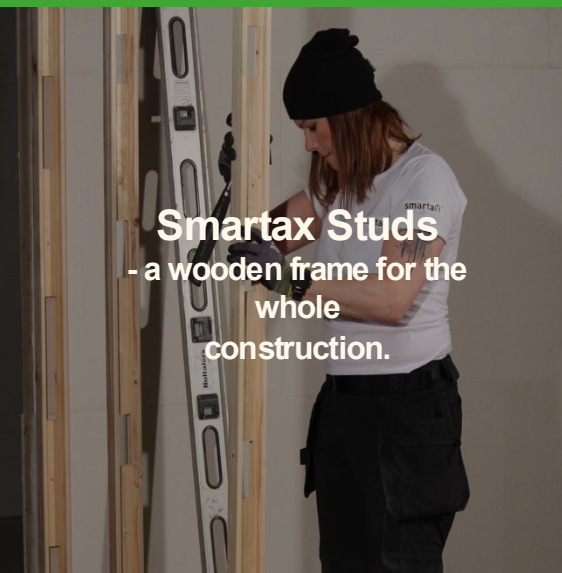

- Superior environmental values and reusable.
- The lowest total cost of ownership on the market.
- Highest quality.

**One three times
smarter solution.**

The Smartax Board
- fiber plasterboard with
patented edge profile.

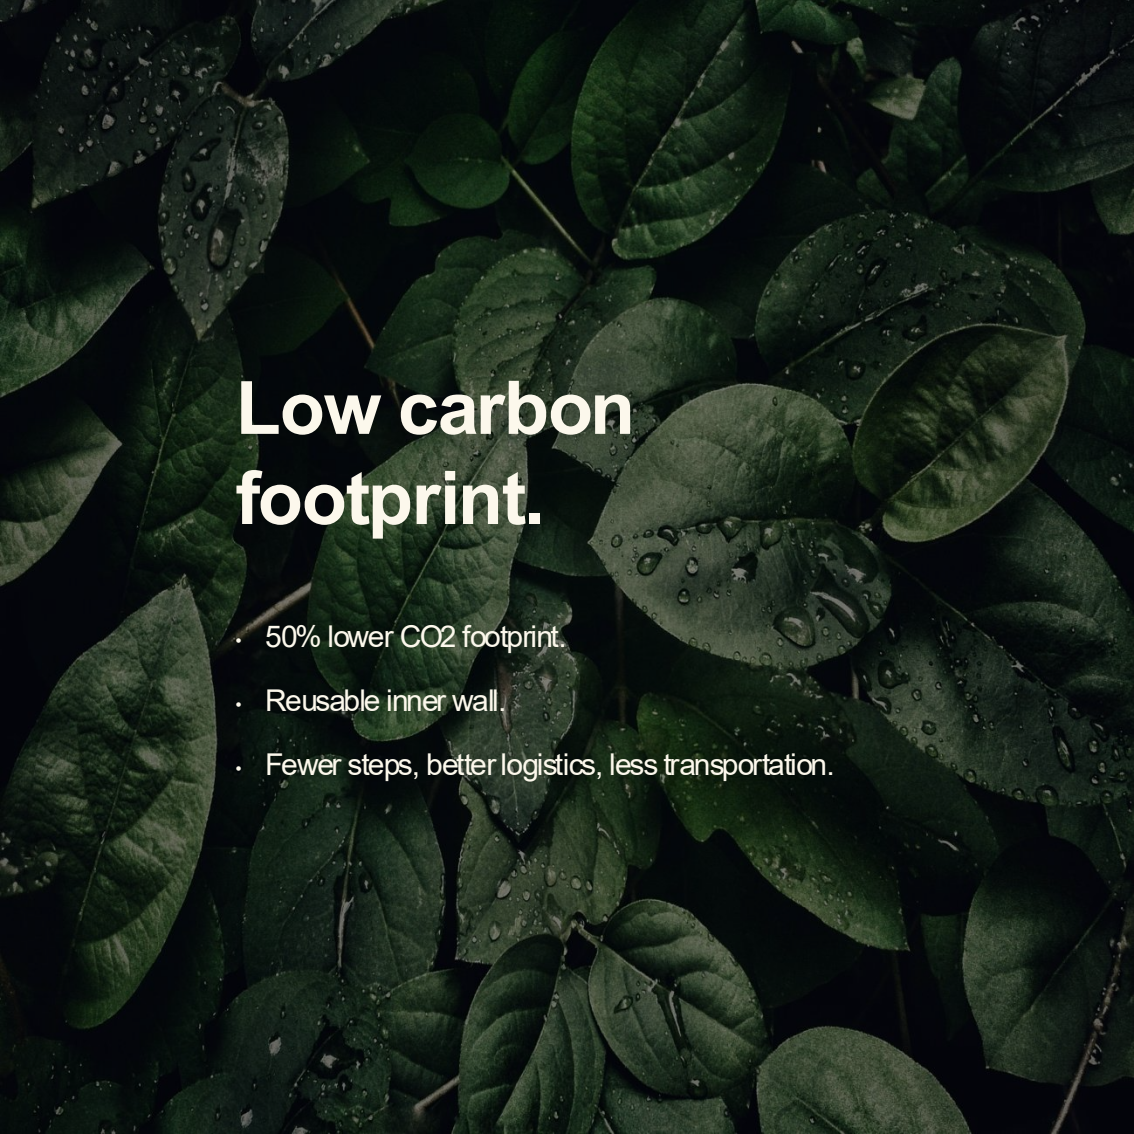

Smartax Studs
- a wooden frame for the
whole
construction.

Smartax Liner
- pre-painted surface layer.

Low carbon footprint.

- 50% lower CO2 footprint.
- Reusable inner wall.
- Fewer steps, better logistics, less transportation.

Fewer steps - Less transportation, chemicals and downtime losses.
